

This is my legacy.

“Both of my parents died from cancer. More recently,
my brother survived a diagnosis of kidney cancer.
I wanted to do something to honor their strength, and
that’s why I made a planned gift to Winship.
I would like my bequest to make a difference.
The ultimate goal is to fund the research that
leads to groundbreaking treatments for cancer.
Can you imagine stopping cancer?
Wouldn’t that be wonderful?”

—Ouida Hayes Lanier 65G

For the past 11 years, Ouida Lanier has volunteered at Winship where she greets incoming patients, and their loved ones. Her bequest will fund cancer research. If you are similarly moved by the mission of Winship, allow her planned gift to serve as an example for you to follow.

Have you planned your legacy?

EMORY

Learn how you can make a difference by including Emory in your estate plan. It is easier than you think. Please call Emory Office of Gift Planning at 404.727.8875.
